Materials and Structures

Springer is pleased to announce that as of January 2006 we will publish Materials and Structures, the flag-ship publication of RILEM*. RILEM is the International Union of Laboratories and Experts in Construction Materials, Systems and Structures.

Materials and Structures provides a unique international and interdisciplinary forum for new and unpublished research on the performance of construction materials. Among the leaders in its field, the Journal is dedicated to

the publication of high-quality papers on the fundamental properties of building materials, their characterization and processing techniques, modeling, standardization of test methods, and the application of research results in building and civil engineering. Always at the leading edge of research, Materials and Structures also publishes comprehensive reports prepared by the technical committees of RILEM.

Editor-in-Chief

Jacques Marchand

In cooperation with an international Advisory Committee

Associate Editors

Ole Mejlhede Jensen, Technical University of Denmark, Lyngby, Denmark
Christopher Leung, HKUST, Hong Kong, China
Sidney Mindess, University of British Columbia, Vancouver BC, Canada
Manfred N. Partl, Empa, Dübendorf, Switzerland
Jason Weiss, Purdue University, West Lafayette IN, USA

Make Materials and Structures your first choice for publication:

- ▶ Fast publication times with 'Online First'
- ▶ Easy submission through Editorial Manager
- ▶ Maximum exposure – more than 15 million individuals worldwide will enjoy full-text access via Springerlink, one of the world's leading interactive content-platforms
- ▶ All articles with DOI (Digital Object Identifier) for citation
- ▶ Included in Cross-Ref – reference links into and out of electronic content
- ▶ Online Journal archive – retro-digitization of previously hard-to-find works going back to the first issue of Materials and Structures.

As member of RILEM you enjoy additional benefits:

- Free access to the online version of 5 renowned Springer Journals
- ▶ International Journal of Fracture
 - ▶ Structural and Multidisciplinary Optimization
 - ▶ Mechanics and Materials in Design
 - ▶ Archive of Applied Mechanics
 - ▶ Acta Mechanica

* RILEM is the French acronym for 'Réunion Internationale des Laboratoires et Experts des Matériaux, Systèmes de Constructions et Ouvrages'.
