Earth Construction Forum 2025

We are excited to announce the first «**Earth Construction Forum (ECF)**» at the Eastern Switzerland University of Applied Sciences (OST) in Rapperswil, Switzerland, on **3rd – 4th October 2025**.

The Earth Construction Forum (ECF) will last for two days and is composed of a General ECF on Friday morning with keynote lectures, followed by scientific sessions on Friday and Saturday. The scientific sessions will focus on the technical and mechanical aspects of earth-based materials and structures.

Confirmed Keynote Speakers, General Earth Construction Forum

- Prof. Dr. Guillaume Habert, ETH Zurich, Switzerland
- Susanne Fröhlich, Conclay, Kimm GmbH & Co.KG
- Miro de Monaco, Genossenschaft Werkzeug
- Representative of Lehm – Ton – Erde (Team Martin Rauch)
- Christiane Löffler, Member of the Board IG Lehm

Apply
now!

Open Call for Scientific Contributions (until June 30th 2025)

The scientific sessions will focus on the technical and mechanical aspects of earth-based materials and structures. The Open Call closes on July 31st 2025, late submissions upon request are possible. Lecture topics can be submitted via an abstract of 300 characters in English. For more detailed information about the submission please visit our website.
