

Jonann Plank, Technische Universität München, Germany
C.S. POON, Hong Kong Polytechnic University, Hong Kong, China
Chunxiang Qian, Southeast University, China
Jueshi Qian, Chongqing University, China
Nicolas Roussel, IFSTTAR, France
Surendra P. Shah, Northwestern University, USA
Geert De Schutter, Ghent University, Belgium
Karen L. Scrivener, Ecole Polytechnique Fédérale de Lausanne, Switzerland
Erik Schlangen, Delft University of Technology, The Netherlands
Etsuo Sakai, Tokyo Institute of Technology, Japan
Caijun Shi, Hunan University, China
Tongbo Sui, Sinoma International Engineering Co., Ltd., China
Luping Tang, Chalmers University, Sweden
Jason Weiss, Oregon State University, USA
Kejin Wang, Iowa State University of Science and Technology, USA
Fuming Wang, Zhengzhou University, China
Yongjiang Xie, China Academy of Railway Sciences, China
Jianzhuang Xiao, Tongji University, China
Feng Xing, Shenzhen University, China
Yongmo Xu, China Building Material Federation, China
Zhongzi Xu, Nanjing Tech University, China
Peiyu Yan, Tsinghua University, China
Qingrui Yue, Central Research Institute of Building and Construction Co., Ltd, China
Yan Yao, China Building Materials Academy Co., Ltd, China
Guang Ye, Delft University of Technology, the Netherlands
Qijun Yu, South China University of Technology, China
Zhiwu Yu, Central South University, China
Tiejun Zhao, Qingdao University of Technology, China

ORGANIZING COMMITTEE

Chair

Jiaping Liu, Southeast University, China

Vice Chair

Guang Ye, Delft University of Technology, Netherlands

Yun Bai, University College London, UK

Wenhui Duan, Monash University, Australia

Members

Qian Tian, Sobute New Materials Co., Ltd., China

Cheng Yu, Sobute New Materials Co., Ltd., China

Pan Feng, Southeast University, China

Yun Gao, Southeast University, China

Wei She, Southeast University, China

IMPORTANT DATE

Deadline for extended abstracts for IMSCE 31 December 2018

Notification of acceptance of abstracts 28 February 2019

Deadline for early bird registration 30 April 2019
for IMSCE and doctoral courses

73rd RILEM WEEK 2019

26 – 30 August, 2019

Pre-conference RILEM Doctoral Courses

21 – 25 August, 2019

International Conference on Innovative Materials for Sustainable Civil Engineering

27 – 29 August, 2019

Nanjing China

Sponsors

RILEM

Chinese Academy of Engineering

National Natural Science Foundation of China

Organizers

Southeast University

Sobute New Materials Co., Ltd

State Key Laboratory of High Performance Civil Engineering Materials

Collaborative Innovation Center for Advanced Engineering Materials

Jiangsu Key Laboratory of Construction Materials

Conference chair

Changwen Miao, Southeast University, China

INTERNATIONAL CONFERENCE ON INNOVATIVE MATERIALS FOR SUSTAINABLE CIVIL ENGINEERING

27 – 29 August, 2019

Background

The IMSCE would like to present the pioneering development of innovative materials for sustainable civil engineering worldwide. Renowned experts from both academic and industry are invited to present their work at this conference. It provides an excellent opportunity for participants to be more familiar with the state of art on low carbon technology and scientific achievements.

Main topic

- Fresh concrete and chemical admixtures
- Hydration and microstructure characterization
- Sustainable cementitious materials
- Deformation and crack controlling
- Durability and service life prediction
- Ultra-high performance cementitious materials

Venue

Nanjing Youth Olympic Conference Center

PRE-CONFERENCE RILEM DOCTORAL COURSES

21 – 25 August, 2019

Main Topic

- Workability and Admixtures
- Hydration and Microstructure
- Shrinkage, Expansion and cracking
- Durability
- Modelling and Simulation
- Supplementary Cementitious Materials
(One day courses, specially for industry, on 25th August)

Venue

Sobute New Materials Co., Ltd

SCIENTIFIC COMMITTEE

Chair

Changwen Miao, Southeast University, China

Members

Nemkumar Banthia, University of British Columbia, Canada
Klaas van Breugel, Delft University of Technology, The Netherlands
Jeffrey W. Bullard, National Institute of Standards and Technology, USA
Nele De Bellie, Ghent University, Belgium
P.A. Muhammed Basheer, University of Leeds, UK
Yun Bai, University College London, UK
Xin Cheng, University of Jinan, China
Jianguo Dai, Hong Kong Polytechnic University, Hong Kong, China
Yufang Fu, Research Institute of Highway, China
Xianglin Gu, Tongji University, China
Edward J. Garboczi, National Institute of Standards and Technology, USA
Ellis M. Gartner, Imperial College London, UK
Robert D. Hooton, University of Toronto, Canada
Shuguang Hu, Wuhan University of Technology, China
Linhua Jiang, Hohai University, China
Zhengwu Jiang, Tongji University, China
Weiliang Jin, Zhejiang University, China
O.M. Jensen, Technical University of Denmark, Denmark
Konstantin Kovler, Technion Israel Institute of Technology, Israel
Kimberly E. Kurtis, Georgia Institute of Technology, USA
Kamal H. Khayat, Missouri University of Science and Technology, USA
Pietro Lura, Swiss Federal Laboratories for Materials Science and Technology, Switzerland
David. A. Lange, University of Illinois, USA
Zongjin Li, Macau University, China
Christopher K.Y. Leung, Hong Kong University of Science and Technology, Hong Kong, China
Hui Li, Harbin Institute of Technology, China
Jiaping Liu, Southeast University, China
Dapeng Li, National Natural Science Foundation of China, China
Faguang Leng, China Academy of Building Research, China
Viktor Mechtcherine, Technische Universität Dresden, Germany
Paulo J.M. Monteiro, University of California at Berkeley, USA
Jacques Marchand, Simco Technologies Inc, Canada
Ditao Niu, Xi'an University of Architecture and Technology, China
John L. Provis, University of Sheffield, UK
