

Digital Concrete

2020

2nd RILEM International Conference on Concrete and Digital Fabrication

Additive and automated manufacturing technologies of cementitious materials are developing at a breathtaking pace around the world, both in academia and in practice. The associated knowledge and experience is expanding daily. Digital Concrete is the primary platform for key innovators and top researchers to exchange insights and discuss findings in this fascinating field.

CALL FOR ABSTRACT

The organizing committee kindly invites anyone interested to submit a 200-400 word abstract for consideration of publication as paper or poster at the conference. Abstract submission is open until **October 1st, 2019**.

IMPORTANT DATES

- 01.10.2019 Abstract deadline
- 15.11.2019 Notification of acceptance
- 01.02.2020 Paper deadline
- 05.07.2020 Pre-conference PhD workshop
- 06-08.07.2020 Conference

CONFERENCE TOPICS

- Mixture Design
- Admixtures
- Rheology & Fresh State Behaviour
- Processing
- Microstructure
- Reinforcement
- Mechanical Performance
- Cold Joints & Interfaces
- Structural Engineering
- Durability & Sustainability
- Design & Applications
- Printing Technologies
- Alternative Materials
- Automation & Industrialization
- And more...
