ROC&TOK Webinar

Alkali-Silica Reaction:
Research Needs and
the Link to Practice
(+Q&A) [REGISTER HERE](#)

**Presentation by Dr. Jason H. Ideker, Professor,
Oregon State University, United States**

Dr. Jason H. Ideker is a Professor at Oregon State University. He is the Editor-in-Chief of CEMENT and Co-Editor-in-Chief of ASTM's Advances in Civil Engineering Materials. Dr. Ideker's main research areas are in service-life of concrete with a focus on early-age behavior of high-performance cementitious materials, prevention and test methods for alkali-silica reaction and durability of calcium aluminate cement systems.
